

# 1993

Finally, after years of heavy spending on maintenance and repairs, the Camp had an uneventful year while cautiously spending their money. It was a good thing too as the camp man days were down. The good news was that the bank balance was on the rise and there were no major projects to tackle this year. The president, Rob Haddow, indicated they had to continue to use the funds wisely as the economy is tough and it will be hard to maintain our income through the low man days.

The shower building was completed this year on June 23<sup>rd</sup>, 1993 by Orlyn Lewis, Bob Larsen, J. Kennedy, Larry Ancypa and Ned Riley and most bugs with the water supply have been removed.

The electrical update work by John Lauder, Doug Lauder, Willis Ball and Tom Rhadigan was proceeding well with two of the 2 man cabins completed. The Main Lodge wiring was made the priority for the upcoming year with \$1,000.00 being set aside to accomplish the task.

Picture August 1999.

Every camp was assigned the task of re-chinking the Main Lodge. Keith Balfour found out it was best to use cement to chink with and got the name of the product for the Board. Al Glover donated a sofa and chair for the porch, a wheelbarrow and a microwave oven to the camp. Once again, the siding job on the Boathouse was postponed due to the shifting. It was getting more serious than ever with the supports breaking under the pressures. Fred A. Isaacs, Bill Gracey and Keith Balfour were working on the drainage problem and would continue over the next few years to solve the problem. The work done by these members saved the Camp a lot of money.

The water purification system talked about before was snubbed and it was decided to continue getting the drinking water from Bennett's well.

The old Party Boat was repaired at a cost of \$497.00 . It had been taken out of the water in the spring and returned after the repairs were done. A steel boat had to have it's bottom replaced by Kenny and the two boats down river also needed repairs. This was to be completed by next spring.

Picnic tables were desired by the members, so the Board was instructed to have 2 in Camp for the following season.

The generators were acting up and blowing the batteries. Al Glover had an electrician friend

coming into spring camp and Al had him, Don Stroud, look into the problem since they were the first in camp for the year.

A new chainsaw was purchased at a cost of \$402.50 for camp use and Rob Haddow said he would try to repair the old one as it would be nice to have two chainsaws in camp. Two used propane fridges were purchased for \$213.76 to be used as bar fridges in the main lodge.

This was a hard year for man days as 5 members resigned. Dues for the year had increased to \$202.00 per year which included 7 free days. A reasonable price for the amenities offered.

Resignations (5) Ed Ancypa, Bob Lauder, Joe Faron, Doug Warford, Mike Milewski.
