

## 1994

A 9.9 HP and a 48 HP motor were ordered at the 1994 Annual General Meeting. Rob Haddow got them from Bay City Marine in Hamilton to be taken to Camp in May 1995 by Al Glover.

The fireplace hearth was repaired by members and coins were placed in the mortar. This closed off the access point where the chipmunks had been coming in to the lodge. The stove in the Cook's Cabin was replaced and the stove in the main sleeping cabin was repaired.

The boathouse foundations were always being affected by frost. The weeping tile was installed to try to reduce the amount of water that gathered around the footings. The back breaking work diverted a large amount of the water but more work was to be done in the years to follow.

July 12 & 13, 1994. From left to right are Rick Ball, Bill Gracey, Ralph Lipsky and Brian Soehner.

The electrical upgrade project had made great progress. The wires and pipe had been completed to all buildings except the shower house. The 100 amp panel was ready for installation in the kitchen and the #8 3 conductor wire had been run from the generator to the kitchen.

John Kennedy, Orlyn Lewis, Bob Larson and Mark Farmer tackled the building of the shower house in June of 1994. The traps to catch the drain water had to be hand dug and many Camps attacked this over the next few years. Many more years were to be spent trying to get sufficient water pressure! (jump to 2004 and see!)

June 1994. Start of shower building.

Bob Larson making the fine adjustments.

Mark Farmer teaching Bob Larson not to make the same mistakes.

Mark Farmer looking for the door?

Mark Farmer roofing.

Bob Larson hard at work or playing King of the Castle?

Orlyn Lewis bottom. John Kennedy top. Unionized!

Bud Lutman was awarded \$350.00 at the Annual General Meeting to proceed with the dock mooring system in 1995.

The grease trap had not yet been filled in and the re-chinking of the main lodge was not finished. These jobs was left over to 1995.

The members decided to create The Constitution of Morton's Point Camp by using the Rules and Regulations of the time and modifying them to current day needs. This project was initiated by the President, Rob Haddow, who was assisted by Jim Steele. The final document was completed in 1999 by Tim Inkster, Keith Balfour and Rob Haddow and voted "in" by the membership.

Resignations (4) Dave Fenton non payment, Dave Love non payment, George Lloyd, Dick Jack Morkin.

New members (1) Ed Urbaniak
